---

## SUMMARY

Senior full-stack engineer with 10+ years shipping web products across fintech, SaaS, e-commerce, and enterprise. Front-end is where I'm sharpest — typed, accessible UI built on React, Next.js, and TypeScript — but I own features end-to-end: data model, API, UI, and tests. Currently architecting Onyx Fiber's internal operations platform and co-founding Trading.AM, Armenia's leading trading platform.

## EXPERIENCE

### KapTek · Full-stack Developer / Technical Lead

2024 – Present  
Remote

Freelance technical lead for clients ranging from startups to enterprises. Architecting Onyx Fiber's internal operations platform — multi-team door-to-door fiber sales business with a custom TSS/TSI scoring engine, intake-to-install pipeline, multi-provider ISP report ingestion, and a multi-dimensional reporting suite. Built on Next.js, TypeScript, Supabase, and a Node backend. Also delivered the KapTek agency site and Strapi-CMS marketing sites.

### Trading.AM · Co-founder · CEO & CTO

2024 – Present  
Yerevan, Armenia

Co-founded and lead engineering for Armenia's leading trading platform — market news, analysis, and trading tools. Build end-to-end with a small, focused team; lead product, engineering, and day-to-day operations.

### Vitl · Frontend Developer

2021 – 2024  
London, UK · Remote

Led the migration of a large Angular application to React across vitl.com and partner sites (Boots Vitamins, Clicks Wellness). Drove rigorous testing with Playwright and Robot Framework; collaborated across backend, design, marketing, and ops.

### intelui · Frontend Developer

2017 – 2021  
Remote

Managed a small developer team while leading Upwork projects from scratch — taking client briefs through to launch across nonprofit, e-commerce, and small-business platforms.

### IMEA Systems · Frontend Developer

2020 – 2021  
Yerevan, Armenia

Designed dashboards and admin panels for fintech and real-estate startups using React, Context API, and MobX.

### ACN · Frontend Developer

2019 – 2020  
Armenia

Owned the entire front-end for a mobile-app notification analytics dashboard with React Hooks and Context API.

### Frontjet · Frontend Developer

2016 – 2017  
Yerevan, Armenia

Built client-side web applications from scratch, translating designer concepts into responsive interfaces for desktop, tablet, and mobile.

## Binomial · Frontend Developer

2015 – 2016  
Yerevan, Armenia

Worked with a remote team at a Silicon Valley logistics & transportation startup.

### SELECTED PROJECTS

<b>Trading.AM</b> · Armenia's leading trading platform — market news, analysis, trading tools.	CEO & CTO · Co-founder
<b>Onyx Fiber Ops</b> · Multi-team door-to-door fiber sales platform with TSS/TSI scoring engine, intake-to-install pipeline, and reporting suite.	Architect · via KapTek
<b>Vitl (vitl.com)</b> · Personalised vitamins & supplements platform. Led the migration from Angular to React and built core commerce flows.	Frontend · 2021–2024
<b>Boots Vitamins</b> · White-label health quiz and recommendations experience for Boots UK, built on the Vitl platform.	Frontend · for Vitl
<b>Clicks Wellness</b> · South African deployment of the Vitl wellness platform for Clicks pharmacies.	Frontend · for Vitl
<b>KapTek</b> · Agency website — designed and built end-to-end.	Full-stack · 2024
